

AM-0064

Twisting unit

Programmable wire twisting station for Wirmec automatic machine, that included:

- Programmable speed rotation and number of rotations;
- Interchangeable twisting jaws;
- Anti-rotation wire system;
- Unit height adjustment;
- Clockwise and counter clockwise rotation;
- Pneumatic ejector scraps;
- Scrap conveyor system;

Technical data:

Wire cross section:	0,03—2,5mm ² (option on request)
Strip length:	1— 15mm (20mm on AM310)
Radius jaws:	0,5mm
Drive:	Step motor
Air supply:	6-7 bar
Power supply:	24VDC
Dimensions:	W160 x D370 x H480mm
